WORK EXPERIENCE

Z Dev
Feb 2024 – Present

Senior ABAP / SAP S/4HANA Consultant

SAP S/4HANA Backend Developer — Hilti (EU) *Apr 2025 – Present*

Repair Order Creation (ROC) platform — SAP S/4HANA backend

- Own the SAP S/4HANA backend layer of Hilti's ROC platform, exposing RAP-based OData services consumed by the front-end application.
- Cover the full repair lifecycle — notification creation, sales order processing, inbound delivery management and warranty replacement logic — across multiple market organizations.
- Combine RAP and classic ABAP to extend functionality and ensure seamless integration.

ABAP Developer — Perrigo (EU) *Jul 2024 – Jun 2026*

SAP–Salesforce Integration — Waves 1–3 (Spain, France, Italy, Portugal, Belgium, Netherlands)

- Designed ABAP OO solutions for SAP–Salesforce integration using proxies and IDocs, building a reusable object model so multiple integration processes follow the same design.
- Created unit test classes covering all scenarios to minimize production errors.
- Built enhancements to the standard SD process flow in ECC to feed data into Salesforce.
- Collaborated cross-functionally with Salesforce, SAP CPI and SAP functional teams across successive country rollouts.

ABAP S/4HANA Developer — Enafor (Algeria) *Feb 2024 – Sep 2024*

S/4HANA Migration, led by Logient (Canada)

- Supported the SAP ECC-to-S/4HANA migration for Enafor, an oil & gas company in Algeria.
- Collaborated with functional teams across SD, MM, HR and FI modules to ensure a successful migration and system integration.
- Adapted custom code, implemented performance improvements and created CDS views to replace legacy ABAP queries.

IBM Argentina
Jun 2018 – Dec 2023

ABAP Consultant → Development Lead

ABAP Development Lead — YPF (Argentina) *Oct 2022 – Dec 2023*

S/4HANA Implementation, Wave 2

- Led a team of 12 developers: project planning, coordination, resource allocation, requirement analysis, technical design and estimation.
- Built ABAP solutions primarily in the RAP paradigm, creating new CDS views for Web API exposure and Fiori Elements apps.
- Conducted code reviews, quality assurance and mentoring; implemented developments across SD, MM, TD and TM modules.

ABAP Senior Consultant — Parque Arauco (Chile) *Feb 2022 – Oct 2022*

S/4HANA Migration — dual maintenance

- Adapted custom code and improved performance for the SAP S/4HANA platform; provided post go-live support and bug fixing across SD, FI, CO and RE modules.

ABAP Semi-Senior Consultant — LATAM Airlines (Regional) *Aug 2021 – Feb 2022*

S/4HANA Migration — dual maintenance

- Adapted custom code and improved performance for S/4HANA; built a tool to automate recurring processes.
- Created CDS views for extractors feeding SAP PAPM; implemented developments in SD and FI modules.

ABAP Semi-Senior Consultant — Alicorp (Regional) *Jan 2021 – Aug 2021*

S/4HANA Implementation — Peru, Ecuador, Colombia, Honduras, Mexico

- ABAP coordinator for the Argentine development team.
- Delivered custom payroll for Ecuador, electronic billing for Mexico, a specialized GLP sales system, CDS views for reporting and AMDP data models for shared objects, across SD, HR, FI, PM and MM modules.

ABAP Semi-Senior Developer — Kallpa (Peru) *Feb 2020 – Jan 2021*

S/4HANA Implementation

- Delivered custom ABAP developments including reports, Adobe Forms, enhancements and BADI implementations.
- Built an ABAP OO solution for ALV reporting and a SALV configurator, across SD, FI and MM modules.

ABAP Junior Developer — IBM ABAP Factory (Argentina) *Jun 2018 – Jan 2020*

Maintenance for YPF, Volkswagen, SAESA, Compensar, Lafrancol, Arauco and CMPC

- Enhanced existing custom code and implemented new developments across SD, MM, FI, HR, PS, PM, PP, QM and ISU modules.
